

### SICT Organized an Environmental Protection Seminar

**On 9 Jul**, Dr. Wang Jianping, Vice-President of the Environmental Protection Bureau of Shantou City, hosted an environmental protection seminar for SICT staff members. During the seminar, he explained the extent of local pollution and its effects on the environment. He also discussed pollution-prevention measures.

One day later, 30 SICT staff members continued their environmental education by touring the Shantou Wastewater Treatment Plant, where they learned about new wastewater treatment technologies.
