

**SICT Conducted a Drill with the Shantou Inspection Quarantine Bureau and the Shantou Port Authority**

**On 9 December**, SICT jointly conducted a drill with the Shantou Inspection Quarantine Bureau and the Shantou Port Authority to enhance the capability of port workers to respond to potential leakages of nuclear radiation. About 50 staff members and officials participated in the drill's three components: staff evacuation, detection and radiation removal.

*Two officials take part in the drill*
