

**JMCT – HPH Dock School Programme**

**On 31 May**, JMCT presented 14 pieces of rehabilitation and gymnasium equipment to the Qizhi School, a local teaching institution for mentally and physically disabled children. JMCT has adopted the school through the HPH Dock School Programme.

The equipment has been specially designed to help the children correct or compensate for the physical disabilities that accompany their disorders. The JMCT team also brought stationery sets to the students as presents for Children's Day.
